Sicamous, a dynamic small community situated halfway between Calgary, Alberta, and Vancouver, B.C. is the Houseboat Capital of Canada. At the junction of the Trans Canada Hwy and Hwy 97A, Sicamous is the gateway to both the Shuswap and the Rogers Pass.

We are the Recreation Destination for All Seasons. Sitting on the shores of both pristine Mara and Shuswap Lakes makes us the water playland and boaters paradise of the Shuswap. Come and experience our Fabulous Fall by floating on our quiet waters, and hiking and walking while listening to the rushing waterfalls and the crisp rustle of the vibrant coloured leaves. Fishing along the approximately 1000 kms of shoreline is especially great in the spring and fall.

Sledding is Superb in Sicamous. We offer winter activity in a picture postcard setting. Nestled adjacent to four mountains and managing an extensive grooming program winter recreation is at its best. There are chalets on three of our sledding areas with the fourth one in the plans. Where else can you houseboat, golf and snowmobile all in the same weekend? Sicamous of course!

Sicamous is fortunate to have abundance of reasonable accommodations, several restaurants and gas stations. We also have two excellent golf courses and mini golf as well. There is recreation and attractions for all kinds of desires from all walks of life.

The population is approximately 3000 growing to around 10,000 in the summer months. The climate is great, and people are looking to retire to this community. There are many amenities to service the residents and it is just a short drive to both Salmon Arm and Vernon.

Interested in coming to play or live in Paradise? Call us at the Sicamous and District Chamber of Commerce.
