The Voice of Business Since 1897!

The value of the Greater Vernon Chamber of Commerce is grounded in three common areas of importance: benefits, networking and advocacy.

An area of Chamber focus is providing direct benefit and service programs for members which include health benefits, merchant credit and debit services, fuel discounts, web site development, natural gas rates, payroll service. We help businesses put their very best foot forward, which in turn stimulates the local economy. The Chamber is hard at work promoting and assisting the business community by hosting and organizing educational and networking events.

The advocacy efforts represent some of the most important work that the Chamber does. Through municipal, provincial and national avenues, the Chamber brings local issues of concern, not only to the members, but to the community at large and to the attention of government. By giving these issues a voice beyond the local level, the Chamber provides much needed input to public policy which benefits the local economic and social well-being.
